

Better Training for Safer Food *Initiative*

**Towards harmonisation of
sprayer inspections among MS**
SPISE TWG Activities

The context

Unique EU directive 128/EC

Specific transcription into national regulations

- inspection procedures (ref standards and interpretation)
- inspection management
- inspection interval

Providing proposals for the harmonization is the main goal of SPISE WG

Inspection management

- National authorities
- Regional authorities
- inspection workshop are accredited (2 ways)

through accreditation acc. to ISO/IEC 17020 – 2012.
Definition of Inspection and control organization

or by National authority

Workshops are periodically audited.

Inspection procedures

Ref standard is EN 13790 part 1 and 2

Will be progressively replaced by EN/ISO 16122 series (1-4)

How MS (try to) comply with the implementation of standards related to sprayer inspection

-> standard understanding, interpretation and practical faisibility...

ex : control of sprayer pump flowrate
Safety valve of bush and tree crop sprayers
Spray distribution homogeneity

SPISE questionnaires, recommendations and guidelines

SPISE WG acts to deliver proposals for the harmonization and the mutual recognition

Exchange information and provide guidelines

Interpretation of EN 13790 and future EN/ISO 16122
